LAUSANNE SWITZERLAND

PRESS RELEASE  
Summer 2020

Discover the new Cinq Mondes spa at the Beau-Rivage Palace, the ultimate spa experience

Driven by the vision of Nathalie Seiler-Hayez, General Manager, and the Cinq Mondes universe, the new spa is designed to be a bubble of pleasure with a discreet, warm and authentic welcome, enhancing your overall wellness.

The project was entrusted to architect Alexandre Pierart (Suprem Architectures) whose approach is based on an initiatory journey of discovery, physical sensations and visual emotions.

"It is an invitation to a journey of the senses. Visitors discover a succession of soothing and mysterious spaces that stimulate the imagination. It is an intimate and enveloping place, with feminine and organic shapes. The soft curves and natural materials—stone, oak, gold, water—are enhanced by soft, golden light. The client's path is dotted with architectural surprises, inspired by art and nature. It is a poetic conception of space, matter and light that encourages contemplation and renewal" - *Alexandre Pierart, architect of the Cinq Mondes spa at the Beau-Rivage Palace*

In addition to this redesigned environment, there are a number of new features including an exceptional double room for the finest services, a newly updated relaxation room and the creation of a yoga and meditation room that can accommodate group classes.

The new Cinq Mondes spa at the Beau-Rivage Palace is the cornerstone of the "Wellness Experience" concept introduced by Nathalie Seiler-Hayez, whose overall spirit will permeate the entire hotel in the spring of 2021.

Let yourself be inspired by this unique location, where we are ready to welcome you.
