REIMAGINING THE ANNE-SOPHIE PIC RESTAURANT IN LAUSANNE

Closing for renovations: 1 October 2023

Rebirth: Spring 2024

It has been 15 years since the Anne-Sophie Pic restaurant opened its doors at the Beau-Rivage Palace, a splendid showcase for the gastronomic excellence of the world's most highly Michelin-starred female chef.

The collaboration between the two icons has been a giant success, fuelled by Pic's attachment to Switzerland, where she has made a thousand discoveries amid a thousand encounters.

The Beau-Rivage Palace and the PIC Group represent an unwavering commitment to distinctive hospitality. They have commissioned renowned French interior architect, Tristan Auer, to undertake a total renovation of the restaurant, and its outdoor terrace.

The recent renovations carried out at the Beau-Rivage Palace, including the renaissance of the historic Beau-Rivage wing and the Spa, have been acclaimed internationally.

“With a reimagined PIC restaurant at the Beau-Rivage Palace, we are delighted to be able to continue enhancing the positioning of this jewel of the Swiss hotel industry,” says Benjamin Chemoul, General Manager of the Beau-Rivage Palace.
